MENDOCINO COUNTY WATER AGENCY TO HOLD DISCUSSION ON GROUNDWATER 101

On Wednesday, May 20, 2015, the Mendocino County Water Agency and the University of California Cooperative Extension Service will hold an educational forum on groundwater. The presenter, Thomas Harter, is a Hydrologist with the Department of Land, Air and Water Resources at the University of California, Davis. Mr. Harter will give an overview on the facts of groundwater, provide details on current legislation and deadlines in order to understand future implications.

"It is very important for everyone to stay engaged in this process within the Ukiah Valley, especially water managers, as it is the only groundwater basin presently in Mendocino County that falls under the mandate of the Sustainable Groundwater Management Act of 2014" stated First District Supervisor Carre Brown, who also chairs the Mendocino County Water Agency Board of Directors. "However, others throughout the County may want to take advantage of Mr. Harter's excellent presentation to understand their own groundwater basins."

Members of the public are encouraged to attend this meeting. The discussion will take place at 5:30 p.m. in the Board of Supervisors Chambers, Room 1070, 501 Low Gap Road, in Ukiah. Participants will have an opportunity to ask questions and receive up-to-date information.

There will also be further discussion on the Sustainable Groundwater Management Act of 2014. At the last meeting, held on March 26, participants were asked to take information back to their constituency, or local governing bodies, for discussion and to develop a recommendation for the creation of a Groundwater Sustainability Agency (GSA).

For more information, or to reserve a spot, please contact Jason Claunch at the Mendocino County Executive Office at (707) 463-4441 or claunchj@co.mendocino.ca.us.
